They have a son who is a contractor in El Paso and who accompanied them to this place, they also have two daughters who are graduates of the Kirksville school of osteopathy and who expect to practice in New Mexico.

This week the dog poisoner has been getting in his deadly work again. Little inoffensive house dogs have been poisoned almost at the door, watch dogs have died on the chain in the very center of their own yards; bird dogs, collies, all alike in all parts of the town fall victim to the man with the dog poison mania. He is no respecter of place or person but the time? Well, it's safer under cover of the night you know and the fellow is so quiet that 'tis thought he would be a howling success as a gum shoe politician.

The editor of the Roswell Register-Tribune says that when he first came to this country he used to write poetry about the spring time but in later years he has realized the useless task of attempting to describe it. If that be true at Roswell it would be almost sacrilegious to mention spring in Sacramento valley.

Clara, the little eight-months-old daughter of Mr. and Mrs. Harvey Davidson, died early Wednesday morning, March 18, after a week's illness. Services were held at the house Thursday at 9:30 a. m. and the little one was placed to rest in the Alamo cemetery. The bereaved parents have the sincere sympathy of many friends in this sad bereavement.

An exchange says the hen hammered out \$600,000,000 in United States in 1907; seems to us she shelled them out but that matters not; her product is equal to all the earnings of the cotton pickers in the U. S. and 1-5 more than all the wheat of this great country. And the delightful part of this all is that her care falls to the woman's work. Lets have more hens.

José L. Lucero, sheriff of Dona Ana county, was in the city Saturday and Sunday on business. This was his first trip into this valley for years and he said that he got out on the back platform of the train, the better to see the country. He will be more surprised in a few years if he will come back and see the improvement that these settlers will have made.
